About:

SIRDS (Sarvodaya Integrated Rural Development Society (R)) came to existence in November 1994 with aim of promoting sustainable, equitable and participatory development, social welfare and social justice through by engaging with the sections of the community through social work, Human resource management, health services and social research. Began working with mentally challenged section of the society, the organization slowly expanded its area of work to farmers, women and children through integrated farming, water conservation, children helpline, self-help groups, education and health. The NGO began function with just four enthusiastic individuals who wanted give back something to the need and less resourceful sections of the society and today we are an entity with around 30 qualified professionals providing social intervention through training and field action. Over the years the organization has made significant contribution in several areas, ranging from sustainable rural and urban development to education, health, agriculture and human rights, in all case, the focused has been on the disadvantaged and marginalized section of societies, such as women, children, farmers and needy community. The organization has successfully stepping into 25th year with lots of confidence that it can reach to more needy at different parts of the country and state where its need is more felt and where it can a significant difference.

Vision:

Building an equitable society by empowering the young men and women, Children and Farmers through education and providing an enabling healthy environment and focus on reduction of poverty through sustainable livelihood by developing skills and brining innovation in agriculture.

Mission:

Sarvodaya Integrated Rural Development Society (R) aims at holistic and sustainable development of the less privileged in both rural and urban areas, through integrating all aspects holistic life i.e. Economic, Physical, Social, Psychological and environmental activities, in order to ensure progress by improving livelihood, socio economic status, health and self-reliance.

Aims and Objectives:

- ✚ Sensitize and mobilize the community towards Social, health, education and economic issues affecting their development.
- ✚ Capacity building through information, trainings, technical support and other assistance particularly aimed at community groups and empower them, so that they are able to find viable solutions to the issues that are hindering their development.
- ✚ Provide services, referrals and develop linkages with government, non-government and other concerned systems for promoting physical, psychological and socio-economic development.
- ✚ Finally, engage the sections of community to address the environmental issues that indirectly affect their development

Role of Sarvodaya IRDS

Given the situation, Sarvodaya IRDS, has taken pro-active steps in this regard, with their expertise, technical knowledge and resources, and closely working with civil administration and the masses in the field of Agriculture, Health, Skill development and Child rights by facilitating different forms of CBOs (Self Help Groups, Organic Farmers Associations/club, watershed committees, labourers committees etc.) to ensure a sustainable solutions to the root causes by developing skills, scientific knowledge and brining in expertise of the government department and scientists.

Overview:

Northern part of Karnataka, which was under the control of Hyderabad Rulers during pre-independent era, has remained one of the most neglected regions even after the independence. Though different organizations have been vocal for the socio-economic development of the area, the frequent changes in the political leadership, political scenarios, not much significant attention has provided thus affecting the development altogether a distant dream. The biggest challenge of the region has been the education of the girl child, which is the result of the low agrarian economy due to lack of rains. Most of the families from the rural areas (which consist of 83%) migrate to cities in search of Jobs due to low or no irrigational facilities which automatically puts full stop on the education of the children especially the girl child as parents do not feel safe to leave them with neighbours or relatives. This has resulted in high number of

school drop outs especially girl child. Today as we step into the 26th year, we have further expanded our foot print across different districts in Karnataka as well as in Madhya Pradesh. Currently we serve in Koppal, Yadgir, Ramanagara, Bangalore Rural, Tumkur, Ranebennur, Chitradurga, Bagalkot, Bidar, Bijapur, Shira Bellary of Karnataka and Indore of Madhya Pradesh, where we have reached out over 1 lakh beneficiaries.

VALUES AND PRINCIPAL:

Dignity of human life & respect for all, honesty, transparency & accountability, Mutual Respect, Creativity, Gender Equality & sensitivity, cost efficiency and Participation.

ORGANISATION BELIEVES

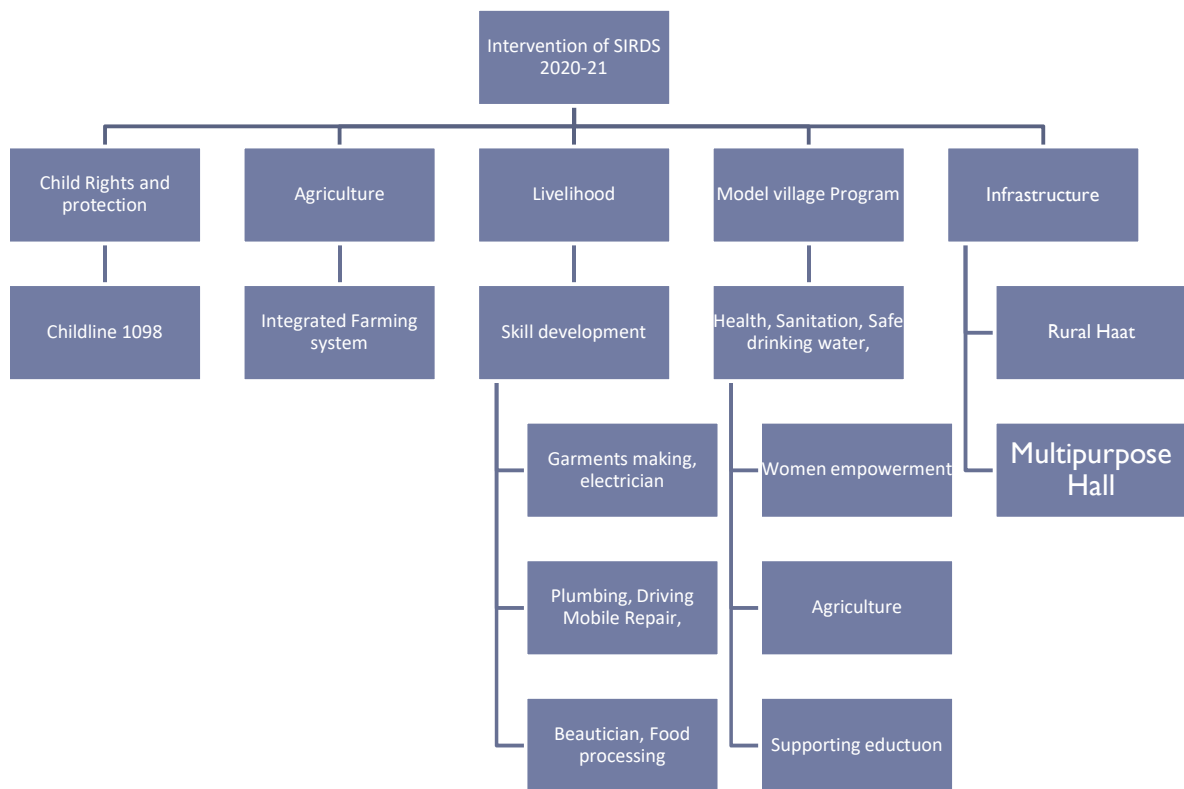

“SIRDS (Sarvodaya Integrated Rural Development Society ® believes In the potential of the poor and rural people in participating actively in development initiatives within their community, equal opportunity for men and women in society irrespective of class, age, ethnic, culture, caste and religion. Respect for Human Rights, freedom of expression, movement and choices of men and women alike. The social harmony free from communal bias. Freedom for earning a living, education and development with Good governance.

We are grateful to all our donors who have contributed for the progress of SIRDS In the Last 26 Years

Our major interventions of the year:

Child Rights and Protection:

The major program that was successfully implemented under this thematic area is Childline 1098 helpline with the help of Childline India Foundation.

Highlights of the year:

- A total of 251 cases of child marriages were prevented with timely intervention
- 192 children were provided assistance including rescue and rehabilitation services
- A total of 1115 cases were reported and successfully handled by the team.
- A total of 8 open house programs were conducted across the district in the village communities to bring about awareness on children's protection.
- Conducted world child labour prevention day with the support of UNICEF, Department of women and child, Labour department in Koppal city to bring about awareness of child labour and its impacts.

The service is for 24 hours day and night. A total of 1000+ calls were answered and prompt actions were followed. Currently the program has a full-fledged team with We have 1 coordinator, 6 team members, 1 counsellor & 1 Volunteer.

Livelihood Promotion:

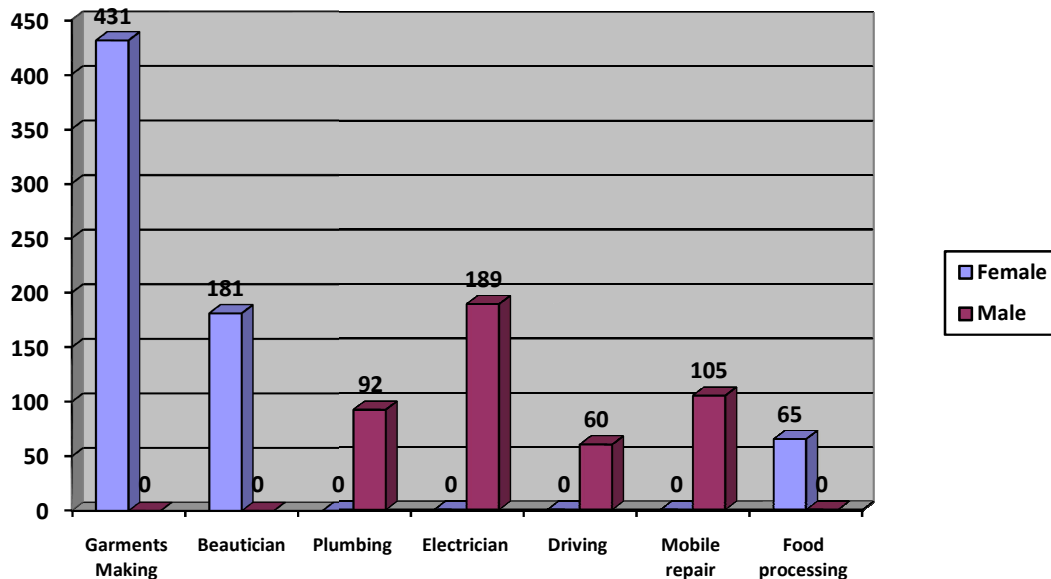

In this consumer age, it is evident that it is not possible to fulfill the needs of the family with one earning member in the family. Hence it has become very essential for both the male and female members of the family also take responsibility in supporting the family income through various livelihood activities. In this regard the organization has taken active role in making the young men and women of the rural households skilled in the most common required trades such as Tailoring and Embroidery, Beautician, Food processing, electrician, plumbing, driving mobile repair and digital literacy.

Highlights:

A total 1173 (496 male and 677 females) trained in various skills ranging from Garments making to digital literacy.

A total of 74% were able to start their own business or are on payrolls of different companies across Karnataka.

Income range has increased of these beneficiaries and are earning on an average up to 7000 to 15000 per month.

In an attempt increase job opportunities for the young men activities such as repairing the women members of the rural households (including illiterates) to provide economic stability of the family by imparting skill / entrepreneurship development training program.

Agriculture:

One of the major issue that the organization is working along is developing and motivating marginal and small farmers to adapt to the changing times and practice farming through innovations. This has enabled the organization to bring the farmers into integrated farming system where the farmer is provided with classroom theory along with field level support through the scientists and model farmers. One of major attempt that the organization has succeeded in is bring the scientist to the people and initiate interaction. This successful attempt has succeeded in creating wonders.

Highlights:

- A total of 125 farmers trained in Integrated Farming system
- A total of 500 acres of land re-cultivated under IFS with cross cropping and multi cropping enabling increase of 30% soil health
- Farmers' average income grew up to 10 to 30 percent in the first year with maximum income earned up 10000 to 50000.
- Farmers have begun community level support system where they come together and discuss and take initiatives to help each other which is a great leaning in adapting changes.
- Farmers especially young farmers have moved into commercial crops from the water hungry domestic crops
- Help seeking from the scientists has steadily gone up among the trained farmers.

Model Village Project:

One of the emerging program that the organization is keen taking as major program for the coming years is the Model village program with the help of corporates. We are currently having two major model villages program one in Bidadi (Ramanagara District).

The program focusses all aspects of the village population such as Health, Education, Women empowerment, Livelihood creation through skill development, Agriculture and Waste management and sanitation. We have successfully converted Medanahalli village in Bidadi industrial area as a model village and will be dedicating the village to civil and elected administration of Bidadi.

The program has been currently supported by Hindustan Coca Cola Beverages Pvt Ltd in Bidadi.

INFRASTRUCRE DEVELOPMENT

RURAL HAAT

Supported by **Syngenta India LTD.** Under Social Responsibility Initiative and **NABARD** and **Dept of Horticulture (Z.P)-Koppal**

Rural Market in Irakalgada:

The rural Market in Irakalgada is part of the village community since long however the absence of the roofed structure, the market has been languished behind with major transactions or the trade happen later in the evenings and making the traders a very uncomfortable experience to trade right under the scorching sun with an average temperature of 35 degrees and soaring up to 42 degrees in the summer. The proposed structures once realize, it would cater to nearly 100+ traders predominantly from the agriculture and farming productions and 1000+ buyers from various walks of life from Irakalgada and surrounding villages.

The current place doesn't have any proper toilet structure which hinders the trading hours of the traders as well as the consumers to limited hours or these consumers and traders opting to open defecation which increases the possibility of polluting the areas and in the process the produce itself. The proposed toilet complex will help in maintenance of cleanliness as well as reduce the open defecation human excreta to a larger extent and increase the trading hours of the traders as well as the consumers.

GOAL OF THE PROJECT

“To promote sustainable mechanisms to increase the livelihood of the farmers and growers of the agricultural products in large in the region and provide for protection and comfort for extended hours of trading.”

“Provide the consumers a good experience of village market with comfortable, safe round the day shopping.”

MULTIPURPOSE HALL @ ABBINAHOLE-HIRIYUR

Introduction

In January 2019 SIRDS signed A Memorandum of Understanding (MOU) with the SYNGENTA India LTD. For implementation of Corporate Social Responsibility Projects for the welfare and development of the villages of any other social welfare work. One of those projects was the construction of Multi Purpose Hall in Abbinahole.

Background Information

Government Higher Primary School, Abbinahole is located approximately 25km from Hiriyr on route to Dharampur. GHPS was started in 1947 and has the strength of 90 children with staff strength of 5 teachers and area of 8 acres which contains 5 classrooms, 1 Kitchen Room, Kitchen garden and play Ground.

As there was no proper space for the children to have the lunch and a room to conduct any other educational activities, School Authorities requested SYNGENTA INDIA LTD to construct a Multi Purpose Hall. Since then Local team of Syngenta with SIRDS went for the Site Inspection to carry out the survey and Syngenta team decided to construct the Multi Purpose hall and implementation was handed over to SIRDS Koppal.

As a result, Construction commenced on the site on 28 June 2019 and despite having to work through the wet season, the project was completed on time and on budget in mid of November 2019.

Multi Purpose Hall

The initial planning was carried out in consultation with Syngenta team, school authorities and the local community. An area for the proposed multipurpose hall was made available within the School premises of area 1200sq ft and handed over the NO OBJECTION CERTIFICATE for the construction of Building.

The design of the building incorporates a hall which will be used for multipurpose like, Lunch hall, Training Area, Conduction of Cultural activities, Exam Hall etc., other facilities include electricity supply and external water point.

Conclusion

This project has been an outstanding success for number of reasons, not the least of which is vastly improved facilities for those young students. This fact alone will contribute better education opportunities and the obvious benefits that brings.

Photo Summary

COVID-19

COVID-19 has been declared as a pandemic by WHO on 11th March as it is spreading so fast across the world. Today, many countries including ours are suffering from the outbreak COVID-19 pandemic. In India also the spread of Corona virus is on increase. In view of anticipated threat, the country is under lockdown from 25th March onwards and literally the mobility of the people across the country has been stalled.

The COVID-19 crisis has already disrupted our entire economic structure, making marginalized sections much more vulnerable and helpless and therefore there is a need for both humanitarian aid and a healthcare response. The people who dependent on daily labour for the living has suddenly become jobless and even many were stranded in different locations due to lack of transport facility. Self- protection with simple measures like wearing face mask, proper hand washing and social distancing is said to be the most successful steps to control the spread of deadly virus. In this crucial situation, in the regard, as we are partnered with you in fighting against Corona we have given awareness on dos & don'ts, Social distancing & Personal Hygiene in 42 villages along with display of banners/flex in the said villages. We gave awareness through Auto Canvassing with a loudspeaker. We got permission from District Legal Service Authority, Koppal for awareness programme in Koppal district.

We also supported in distribution of Grocery kits & Face Mask in the Koppal district with Syngenta Officials.

Distribution of Grocery and Vegetable kits

Along with the above we concentrated to focus on the people who were working in field and a program was done especially for them.

Project details and scope: As covid-19 is spreading in rural area we need to take action and precautions towards stopping the spreading of it. In order to help the people especially the seed growers, his/her family and workforce in possible ways, we are going to focus on raising awareness on precautions to stop spreading, encourage to get vaccinated and health monitoring.

We have around 90 farms in Koppal location, each farm will have around 30 workers. To complete one cycle of the health monitoring by checking their body temperature and pulse rate, we need around 15 days if a team can visit at least 6 - 7 farms in a day. During initial stage of the crop (June-July), a labor requirement is very nominal, when plant grows, especially during pollination it may raise to approximate 3000 per day. So, in the month of August onwards labor movement will be very high, probable to higher chance of spreading.

The project intervention must start from August - raise awareness on spreading, precautions and to get vaccinated all. In addition to this, project team consists of a nurse will check the body temperature and pulse rate.

1. Implementation procedure

- Team visited each farm on daily basis for 3 months covering all the growers

- Spread the message on precautions to be taken stop the spreading and motivate them to get vaccinated
- Individual person who will be available in farms has been checked with their Temperature and Oxygen level
- All these noted readings will be documented
- If there is any symptoms found with the person will be referred to the local Health Care Centre

CONCLUSION:

We the nonprofit organization work towards social welfare, through making Self Help Groups in villages & providing awareness programme about hygiene with the importance of education. And train up them on sewing or stitching cloths and beautician courses to learn & utilize them for their own development with creation of self employment. Then considering the village for Model Village concept which is backward or remote area AdaviHalli through over all developments like safe drinking water facilities, preference to be given for sampoonasaksharata and bringing up some of the youths as volunteers, help them in self employment. here farmers will get trained up for integrated faming system with animal husbandry including rain water harvesting, water sheds, controlling the soil erosion through mixed farming etc.

started from the last year at all the Kalyana Karnataka location for the upliftment of the people. Accordingly KKHRACS implemented different schemes at different Taluks of these

regions through different NGO'S and we Sarvodaya Integrated Rural development Society were handed over Three Taluks. They are Sandur from Bellary district and Hagaribommanahalli and Huvinahadagali from Vijayanagar District. The Kalyana Karnataka have been supporting the society at different sectors like Agriculture, Health, Education, Self Employment, Culture and Heritage and others.

AGRICULTURE

For the upliftment of farmers of the society many schemes were implemented. These schemes were the means for farmers to increase their income. Following schemes were implemented:

01. Distribution of Honeybee box:

Among the various pollinating agents, honeybees play a very important role. The Nectar inside the colony has economic value therefore it adds an added income to the farmers. So, under this scheme total of 58 Honeybee boxes were distributed to the Farmers and 46 and 12 were shared by Hadagali and Sandur Taluk, respectively.

02. Nursery Saplings:

Total of 1500 saplings were distributed as 5000 each to each Taluks. These saplings supported the farmers and also enriched the No. of plants in the environment.

Education

To strengthen the education system of the Children in these areas Following programs were under taken:

01. Pragathi Kendra:

Learn after school program was started in the name of “Pragathi Kendras” at all the Villages of every Taluks. Therefore, we have total of 281 Pragathi Kendras were 6500+

students have been thought Customs, heritage and other curricular activities apart from syllabus.

02. Establishing Smart Classes

Visual learning using smart technology elements like images, graphs, flow charts, videos, etc., are considered highly effective and help students grasp the concepts quickly. Smart classrooms also reduce distractions, and therefore, students can concentrate more and retain more information. To enhance Students learning Power total of 35 Smart classes were established

ಗ್ರಾಮೀಣ ಶಾಲೆಗಳಿಗೆ ಎನ್.ಜಿ.ಓ ಬೆಂಬಲ ಶ್ಯಾಫನೀಯ

ಸಂಸ್ಥೆಯ ಧೇಯವಾಗಿದೆ ಆ ನಿಟ್ಟಿನಲ್ಲಿ ಕಲ್ಯಾಣ ಕರ್ನಾಟಕದಿಂದ ನಮ್ಮ ಸಂಸ್ಥೆಗೆ ಬರುವ ಅನುದಾನದಲ್ಲಿ ಅನುದಾನಗಳನ್ನು ಈ ಎರಡು ಕ್ಷೇತ್ರಗಳಿಗೆ ವಿಭಜಿಸಲಾಗುವ ಮೂಲಕ ಕೃಷಿ ಮತ್ತು ಶಿಕ್ಷಣ ಕ್ಷೇತ್ರಗಳನ್ನು ಬಲಪಡಿಸಲು ಪ್ರಯತ್ನಿಸುತ್ತೇವೆ. ಆ ನಿಟ್ಟಿನಲ್ಲಿ ಮೊದಲ ಹೆಜ್ಜೆಯಾಗಿ ನಮ್ಮ ಸಂಸ್ಥೆಯು ಗ್ರಾಮೀಣ ಶಾಲೆಯ ಉಪಯೋಗಕ್ಕೆ ಬೇಕಾದ ಪರಿಕರಗಳನ್ನು ವಿತರಿಸುವ ಮೂಲಕ ನಿಮ್ಮ ಶಾಲೆಯೊಂದಿಗೆ ಸಾಮರ್ಥ್ಯವೆ ಎಂಬುದನ್ನು ಸೂಚಿಸಲು ಬಯಸುತ್ತೇವೆ ಎಂದರು.

03. Distribution of Parade Sets

Two Parade sets were distributed for boosting the students who were interested in Scouts n Guides.

SELF EMPLOYMENT

For employment generation especially to the women at village Skill training was started from Master Trainer in the name of Kousalya Kendras. Here the master trainers were asked to train regard Sewing and embroidery works to the local women's by providing each master trainer with 4 Tailoring Machines and 1 Pico Machine. There are total of 93 Kousalya Kendras were there are 1400+ women are being trained.

HEALTH

Four RO Units were installed at schools & colleges in 4 villages of Vijayanagar district.

CULTURE AND HERITAGE & OTHERS

Total 144 COVID kits & 2 Band kits were distributed

MODEL VILLAGE INITIATIVE

One of its most important components is the initial or preliminary conference with an arbitrator whether it is a tri-panel or party arbitration. Advance communication between counsel and an initiative-taking arbitrator are essential for achieving the goal of a fair, efficient, and economical resolution of the dispute. The primary purpose of the preliminary meeting is to set out the procedure

for the entire project. This meet will help to introduce the parties to the process so that all parties understand what the process involves and a clear agenda can be established. We invited quorum of the following department officials to have a discussion for implementing the "Model Village Initiative" at Adavihalli Village along with their support for Mukand Sumi CSR activities on 5th January 2021, @ 11 Am @ Sarvodaya IRDS, Koppal office premises.

- 1) Women & Child Dept
- 2) MNREGA
- 3) NRLM
- 4) EO, Taluk Panchayat
- 5) Animal Husbandry
- 6) Education Dept
- 7) Adult Education
- 8) Horticulture Dept
- 9) Forest Dept
- 10) Health Dept
- 11) Agriculture Dept
- 12) PDO, Talkal Gram Panchayat
- 13) Sheep & Wool Corporation
- 14) Lead Bank - SBI

The meeting went well in the presence of Deputy Secretary Mr Sharanbasavaraj, ZP, Koppal along with Mukandsumi officials Mr. Subba Rao, Mr. Manjunath & Mr Maruthi. The outcome of the meeting are as follows :

SI No	Particulars	MSSSL / Govt
1	Agreed to provide School compound wall	ZP
2	Transport Facility (KSRTC Bus facility from Talkal to	ZP

	Adavihalli)	
3	Plantation	Forest Department
4	Anganwadi Renovation	MSSSL
5	Agri related Technical Support	Agri Dept & Animal Husbandry
6	Training for the need	MSSSL with allied Departments
7	Lake Formation	MSSSL / ZP
8	SHG support	NRLM
9	Skill Development	Allied Departments
10	Nutri Garden	Horticulture Dept

Ground Breaking ceremony at Adavihalli village

Base on the need assessment we planned the activities accordingly. We mainly focused on the following @ Adavihalli

- 1) Infrastructure
- 2) Safe Drinking water
- 3) Health
- 4) Education
- 5) Women Empowerment
- 6) Agriculture
- 7) Other Basic Amenities

5 lines Road and Drainage Construction – total 780 mts road construction completed through HKRDP Scheme through PWD

Distribution of Water Cans

At the early beginning of the project a thematic health camp was organized in coordination with KS Hospital, SG Ayurvedic Medical College, Dept of Health in association with Mukandsumi Special Steels Ltd & organized by Sarvodaya Irds, Koppal.

- 216 Patients-Health checkup
- 19 beneficiaries referred

As part of health initiative Awareness program on menstrual health & hygiene was conducted in the Adavihalli village. There are total 13 adolescents & along with 50 women on average in the village

participated in the program and benefitted from the program.

Interventions in the school where the entire school environment can be improved by providing more man power (teachers), building construction for smart class, library, sports material, Compound wall construction, Sanitation block renovation, Tree plantation, development of Play ground, Nutri Garden, RO water facility & Wall Writing facilities, **Anganwadi building renovation**, sitting items & providing other study materials will help in improving the teaching methods which make students learning fun rather than a routine.

Sanitation unit construction attached to Anganwadi Building Activities completed @ Anganwadi village (Anganwadi Flooring & Sanitation unit Construction):

- Demolition of the Existing Flooring 1200 Sq ft
- Dis-metalling of the materials
- Excavation of foundation up to 2ft for flooring
- Murom Filling
- Demolition of the Existing Toilet rooms

- Filling of the Boulders and 40mm gravel filling
- Fixing of the Tiles
- Construction of the Washing area inside the Kitchen Room
- Construction of the new toilet beside the existing building
- **Vocation training and skill enhancing Programs**

Establishing vocational training centers or skill enhancing programs so that enough skilled man power can be availed from the village thus helping in reducing un-employment.

In today's world skill development in rural India is highly important. Lack of proper education and training restricts people from the opportunities for self-advancement by limiting their access to well-paid employment. Hence this prevents them from making an influential contribution to economic growth and from having opportunities in their lives to build a satisfying and healthy lifestyle.

To upgrade their economic status we have given Garments Making Training for 30 women at Adavihalli for 3 months. Our trainer Mrs. Pramila Madivalar who has vast experience in this field has given training at their village level. After successful completion of the training we approached Selco Foundation for Solar support for DC Motor along with a light. All the 30 took the benefit of Solar

Cleanliness Drive

To enhance the aesthetic look of the village (MVP) a series of cleanliness drives were initiated. As part of the sustainability the village households have taken the initiative to clean the village. Monthly twice this activity is in practice among the villagers. SHG members, Youths & elders actively participated and cleaned the village & at old village.

As a part of Mukandsumi Special Steels Ltd Model Village initiative tree plantation was done on 18th July 2021 in association with Sri Gavimath, Koppal, Forest dept & GP. Total 350 saplings were

planted at Adavihalli village in the presence of Sri Gavimath Swamiji

Organic farming promotion in the adopted village, ADAVIHALLI, through SIRDS

SARVODAYA Integrated Rural Development Society, Koppal has undertaken Adavihalli as model village, Kukanur taluk after all the need based survey and economic situation of the rural community. In order to create livelihood opportunities and self-sustainable farming systems of the farmers in the adopted village, the organization has distributed a total of 80 cattle to the women farmers with various development activities by which most of them are currently engaged in compost preparation and organic matter production, and thus it has made a commendable effort in promoting organic farming through digested slurry and producing other organic manures and cow urine in the village. The relevant photos for the above said activities are as follows

Sarvodaya IRDS also worked with the people as their participation is highly important for making the program successful. The engagement with all the stakeholders at every level and regularly.

As SIRDS approached Govt Dept support Mr. Raghunandhan Murthy our respected CEO visited adavihalli along with the subordinates and advised to support SIRDS & MSSSL in developing Adavihalli Village through linking to Government Schemes.

NABARD - FARMER PRODUCER COMPANY

Under the National Bank for Agriculture and Rural Development (NABARD) of Government of

India, through NABARD farmers, especially small and marginal farmers are being collectivized at various levels, across several states with the objective of technology penetration, improving productivity, enabling improved access to inputs and increasing farmers' incomes thereby strengthening agriculture based sustainable livelihoods. To achieve these objectives, farmers are being grouped into Farmers Producer Organization (FPO) – the basic unit of the Project with about 500 farmers. Therefore Under Sarvodaya IRDS, Koppal 5 FPO'S have been Sanctioned at five different taluks of Koppal District Namely, Bhattadanadu FPO, Gangavathi, Kshira Vardini FPO, Koppal, Hosabelaku FPO, Kushtagi, Vishwavikas FPO, Kartagi And Meshavardini FPO, Yelburga.
